## Education

---

**Jaypee University of Engineering and Technology**

2022 - 2026

B.Tech in Computer Science and Engineering

**Grade: 7.7**

**All India Senior School Certificate Examination (Class 12)**

2021

Science (Physics, Chemistry, Mathematics)

**Percentage: 91%**

## Projects

---

### #1. NextPay

Source Code

*Tech-Stack: NextJs, Solidity, Web3Js, Solana, Tailwind CSS*

- Developed both frontend and backend solutions for secure identity verification using Aadhaar, ensuring privacy and security without compromising user experience.
- Developed a real-time audio notification sandbox, including frontend design, and created components for seamless Ethereum transfers across multiple EVM-compatible blockchains.

### #2. QueryGenie

Source Code

*Tech-Stack: ReactJs, NodeJs, ExpressJs, Tailwind CSS, OpenAI API*

- Developed QueryGenie (ChatBot) using the MERN stack, integrating MongoDB, Express.js, React.js, and Node.js to build a full-stack application with a responsive user interface and robust backend capabilities.
- Integrated OpenAI API for dynamic query responses, enabling the chatbot to provide intelligent and context-aware answers, enhancing user interaction through AI-driven conversational capabilities.

### #3. Meeting Scheduler

Source Code

*Tech-Stack: NextJS, Typescript, AntD*

- Developed a meeting scheduler web application using Next.js, focusing on performance and modern web development practices..
- Integrated Ant Design (antd) to create a user-friendly and responsive UI, enhancing the overall user experience with clean and intuitive design elements.

## Technical Skills

---

**Languages:** C, C++, JavaScript, TypeScript, SQL, HTML/CSS, Solidity, Rust

**Frameworks and Libraries:** React, NextJs, NodeJs, ExpressJs, Tailwind CSS

**Databases:** MySQL, MongoDB

**Other Skills:** Git, GitHub, Postman, Prisma, Canva, UI, UX

## Positions & Responsibilities

---

### E-Cell Member

*Developer Committee, JUET*

- Served as the Technical Head responsible for the creation of the website of the E-Cell of JUET, enabling the students to engage in entrepreneurship and fostering an atmosphere where the creation of startups is encouraged.
